AT AUCTION
—AT MY—
SALESROOM
APRIL 11, 1906.
NOON.

The sale of the above property is postponed until SATURDAY, APRIL 21, 1906, at 12 o'clock noon, at my salesroom.

Full particulars at my office.

JAS. F. MORGAN,
AUCTIONEER.

THE ORDER OF KAPIOLANI

Word has been received in Honolulu of the death of Lady Sarah Jane Bullard of Norwich, England, widow of Sir Harry Bullard, Knt.

In the year 1887 Norwich was visited by Queen Kapiolani and Princess Liliuokalani, and on the return of the queen to the dominions of her consort, King Kalakaua, appointed Lady Bullard Companion of the Royal Order of Kapiolani.

This was in the year of the Jubilee of the reign of Queen Victoria.

The late Lady Bullard was a relative of H. M. Ayres of this city.

ARMY PROMOTIONS.

WASHINGTON, April 14.—Lieutenant General Bates, U. S. A., retired from active service today. General Corbin succeeds him and General Bell will be chief of staff.

CONFIDENCE

said Lord Chatham, "is a plant of slow growth." People believe in things that they see, and in a broad sense they are right. What is sometimes called blind faith is not faith at all. There must be reason and fact to form a foundation for trust. In regard to a medicine or remedy, for example, people ask, "Has it cured others? Have cases like mine been relieved by it? Is it in harmony with the truths of modern science, and has it a record above suspicion? If so, it is worthy of confidence; and if I am ever attacked by any of the maladies for which it is commended I shall resort to it in full belief in its power to help me." On these lines

WAMPOLE'S PREPARATION has won its high reputation among medical men, and the people of all civilized countries. They trust it for the same reason that they trust in the familiar laws of nature or in the action of common things. This effective remedy is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. It quickly eradicates the poisonous, disease-breeding acids and other toxic matters from the system; regulates and promotes the normal action of the organs, gives vigorous appetite and digestion, and is infallible in Prostration—following Fevers, etc., Scrofula, Influenza, Asthma, Wasting Diseases, Throat and Lung Troubles, etc. Dr. W. A. Young, of Canada, says: "Your tasteless preparation of cod liver oil has given me uniformly satisfactory results, my patients having been of all ages." It is a product of the skill and science of to-day and is successful after the old style modes of treatment have been appealed to in vain. Sold by all chemists.

GOES AFTER FILIPINOS

Albert F. Judd the Man Chosen by Planters.

It is said that the Planters' Association has selected Attorney Albert F. Judd as its envoy to go to the Philippines in search of labor for the cane fields. This is the task that O. A. Stevens and Manager Fairchild of the Makee Sugar Company declined to undertake. Mr. Judd, the tale goes, will probably sail for the Orient on the America Maru next week. As to the Philippines as cane field laborers, there are some experimental features in the case. They do not labor much at agricultural work in their own country, where the land has always been farmed by Chinese, for the most part, and where a great hardship is said to have resulted from the exclusion of Chinamen. That has all been threshed out in the American newspapers.

For the purposes of labor in town, General James F. Smith, who will be the next Governor General of the Philippines, told a representative of the Advertiser last week that the Filipinos had turned out remarkably well, much to the General's surprise.

"They do not work in communities," said General Smith. "You have to pay each man what is coming to him on pay day. He demands that the money be given into his own hands. And then, those who have had the most success with them build houses for them, put up cock pits and let them fight cocks on Sunday and holidays and at night, and it is also expected that the employer of labor shall hire a band and permit the workmen to have a ball every night, if they want to."

PECULIAR CUSTOMS.

"They will turn up bright and early the next morning, and do a good day's work. I confess that it surprised me—but they built the Manila street railway system faster than a work of that kind was ever done before. When a contractor wants to discharge a man, he simply throws him out of his house and installs a new tenant."

And so, if Mr. Judd succeeds in his mission, there will be a new element introduced into the low life of Hawaii, and the Sunday cock fight and the nightly ballie may be expected to become features of living on the plantations. Incidentally, the Filipino not having changed the Malay blood that is in him, a luma who offends the labor gang may expect to find a long bolt sticking into his ribs some evening when he is not noticing, and if the laborers who come should bring a few gallons of vino nipa along with them, an entirely unique form of drunkenness will begin to thrive, and an occasional laborer may be expected to get "hot in the head," and run amuck in the crowd at the Fishmarket.

STACKABLE IS READY.

Yesterday Acting Governor Atkinson had a long conference with Collector of the Port Stackable, who has been granted leave of absence to visit Southern Italy and the Azores on a labor mission. At the conclusion of the conference it was stated that Mr. Stackable would be ready to start in about six weeks. That was what the Advertiser said yesterday. Mr. Stackable will probably meet the full Board of Immigration early next week, and the whole situation will be gone over thoroughly. The members of the board, the Acting Governor, and the special commissioner are all fully alive to the importance of the move to be made—and to the importance, also, of the preservation of the interest of the Washington officials. It is, indeed, more important than anything else at this juncture that Washington should be convinced that Hawaii is in earnest in its desire to secure white laborers, who will be fit material for citizens and landowners.

Who is to accompany Stackable on his mission has not yet been determined, but whoever it is will remain on the ground, and see to the actual starting of the immigrants. The Collector of the Port can only remain away from his post for six months, and even though an extension of leave might be secured, he would still not be able to more than conduct the preliminary and most important negotiations with the authorities of the lands to which he will be credited, and with the leaders among the people it is proposed to bring over here. There must be a good man on the ground to see that the laborers actually start.

HOMES FOR IMMIGRANTS.

The Acting Governor and Collector Stackable, among other matters that they discussed at their meeting, agreed upon the advisability of securing a set of photographs of cane fields, plantation scenes, houses, sugar mills and methods of work to be shown intending immigrants in Europe and the Azores so as to give them some kind of an idea of the quarters they will occupy and the manner of work in which they will be expected to engage.

The collection of photographs will be as complete as it can possibly be made. It is probable, also, that outline maps will be taken showing the lands that will be offered upon the various plantations. It is known that plans of these lands are being prepared, and if they are taken along by Commissioner Stackable he can speak with more authority to the people on the other side. Of course, under the law, he can make no direct offers of land—but he can tell the intending immigrants what can be secured, and can do that much better if he has the plans of land in his hands.

TOURISTS LOOK FOR CLIFF DWELLERS

A number of tourists were recently taking a car ride on the Maunaloa valley route. One of them was anxiously scanning the hillsides as the car wound down through the College Hills tract, and finally he arose and sought the conductor.

"I am very anxious to see where the cliff-dwellers live," he said to the transfer-puncher.

"Cliff-dwellers?" queried the conductor.

"Yes, the cliff-dwellers," continued the tourist. "I was told that it was in this valley that they lived and I don't want to leave here until I see them."

The conductor put the tourists wise and added that the only cliff-dwellers he knew of were in Arizona or Pacific Heights.

FESTIVAL SOLOISTS ARE TALENTED

With the announcement that such talented vocalists as Grace Davis Northrup and Chester W. Rosecrans will be heard at the concert of Honolulu's third musical festival, interest in that event is increasing.

Mr. Rosecrans is the tenor soloist at the First Congregational Church of Oakland and comes highly recommended. He was formerly in the choir of Trinity Episcopal Church of San Francisco. He possesses a voice that rings out strong and is perfectly true in every position.

Mrs. Grace Davis Northrup enjoys a great reputation as a soprano vocalist in San Francisco. Her voice is healthy and strong, her execution is artistic and very tasteful and her selection of songs is very discriminating.

The "Congress of Song" takes place in the Opera House on the evening of May 3 on which occasion there will be a chorus of 300 voices.

The following day the "Children's Carnival of Song" will be held at the Boys' Field on Liliha street, commencing at 4 p. m. The chorus at this concert will be 600 adult voices strong.

Choruses from Oahu College, High School, Normal School, Kamehameha Schools, Mills Institute, Kaahumanu School, Kapiolani School and Royal School, are in training for the great musical event.

MAN WHO GAVE ELKDOM TO HAWAII

Lieut. Gov. Lynn Bruce of New York was entertained by the Amsterdam Elks on February 14 and in the course of his address he said: "On my first visit here I came at the invitation of Mr. Kline, as I do again tonight, but then, as now, he is absent. Like the advance agent of a show, he makes the arrangements and then goes on. He is away with his wife enjoying the pleasures of travel and on his journey will again visit Honolulu. On his first trip to Hawaii there was no lodge of Elks in Honolulu, but now on his second journey there 350 Elks will extend him the right hand of fellowship. It was during my administration that I had the pleasure of planting the banner of Elkdom in Hawaii, and also in Manila and Porto Rico and at several places in Alaska."

WAR IN REPUBLICAN COUNTY COMMITTEE

(Continued from Page 1.)

Ninth Precinct of the Fifth District at Alewa quarry.

"Information. On the first day of September, 1905, the following named men from the 7th, 8th, 10th and 11th precincts, respectively, of the Fifth District were engaged to work at Alewa quarry, their overseer being William Rathburn.

"7th Precinct: Kuaomoana.

"8th Precinct: Lono Kaiolohia, Joseph Hapua, Iwila, Kekuewa, Walo, Wailama, Kaleimano, Enoka, Balota, Chas. Kapule, Henry Kanoa, Kaina, Kalawa, Sam Pulehu, Kaimi, S. Kanala, Geo. Kaana, Joseph Kaluna, C. L. Kopa, Kewalo.

"10th Precinct: Maunaloa, Kaha-hona.

"11th Precinct: Mahiole, Painahala, Pikoakalani.

"The next day, September 2, 1905, they were told that there was no more work for them, or, in other words, they were discharged without any cause. On same day in the morning Supervisor Adams and Mr. Fred Waterhouse visited the Alewa quarry and instructed the overseer, Mr. Rathburn, to put to work the following named men from the 9th Precinct, 8th District, in place of those discharged as aforesaid:

"9th Precinct: James Lahui, Kepa, Kaahue, Peter Umi, Ako, Joe Mitchell, Kapana-nui, Kapana-hili, Akamu, Solomon Adams, Moses Adams, Ella, Kapaeha, Kapaeha, Kolomoa Kaloa.

"A week later eleven more men from the said 9th Precinct were employed, whose names may now be obtained by reference to the payroll of September or October, 1905. The newly-appointed men from said 9th Precinct have since continued to work at said quarry until their discharge during the first week of February, 1906.

"The present force began work on April 2, 1905, and consisted of the following named men, under the supervision of Palkali, overseer:

"8th Precinct: Joseph Hapua, Iwila, Kewalo, Balota, Sam Pulehu, Geo. Kaana, Kaina.

"9th Precinct: Lahui, Kepa, Kaahue.

"10th Precinct: Maunaloa, Mao.

"Since writing the above the following names were brought in as be-

THE BYSTANDER

(Continued from Page 4.)

his rights and privileges as a citizen are abused if politics is turned to as the readiest and most legitimate means of getting rid of him?

Honolulu is fortunate in having so artistic a delineator as Viggo Jacobsen. What our people would do without Viggo if they wanted a set of resolutions engrossed, nobody knows. He is always on hand to put the finishing touches in black and white on a ceremonial of any sort, resolutions of respect or condolence preferred; and when he is wanted for delicate forms of newspaper illustration, there he is. In today's Advertiser he shows what he can do with an Easter Lorder and engrossed poem. People who do pyrography on leather need such designs as Viggo makes and ought to have them. There is nothing of the amateur about the accomplished delineator. He loves art for art's sake and he has been carefully trained for his work.

A stranger stood at Fort and King streets the other day and his hat blew off. He was starting to run after it when a passing business man touched him on the arm and said: "No need of that! Somebody will bring it to you in a moment." Sure enough, three men were already in pursuit of the flying straw and the one that caught it hurriedly returned it to the owner. The latter looked at his admirer and remarked: "Well if Honolulu ain't the blonkiest hospitable town I ever saw. They won't even let you run after your own hat."

COMMERCIAL.

(Continued from Page 4.)

E. R. Stackable, collector of customs, having obtained written leave of absence from the Secretary of the Treasury, will shortly leave for Italy, Portugal and the Azores to look up labor settlers for the plantations. A. F. Judd will be sent to the Philippines by the Board of Immigration to investigate the chances of a plantation labor supply from those islands.

REAL ESTATE AND BUILDING.

At a sale held by J. F. Morgan yesterday J. R. Galt bought for \$6300 an undivided 1-27th part of the Holt estate lands at Waiialua, now leased at a yearly rental of \$333.34.

Land Commissioner Pratt yesterday sold the last of the Palolo tract home-steads, containing 3.01 acres. There was competition and C. M. Lovsted got the land for \$250, its upset price having been \$150.

According to deeds recorded the Sisters of the Sacred Hearts sold their lot at Kalihi to the Pacific Guano and Fertilizer Co. for \$7000, and bought two lots in Kaimuki tract from the Schuman Carriage Co. for \$2000 and lots 9 to 16 inclusive, in the same tract from Gear, Lansing & Co. trustees for \$1800.

A transaction of one and a half million dollars has been recorded, being the trust mortgage deed of Waiialua Agricultural Co. to Hawaiian Trust Co. for the consideration of \$1 and bond issuance of \$1,500,000.

Bishop & Co., bankers, have bought the Bethel street lot adjoining the Damon building, with twenty feet frontage, for \$11,500 and will erect thereon a handsome building for the accommodation of Bishop Trust Co.

A release for \$3382.70 from E. B. McClanahan to Kapiolani Estate, Ltd., for property at Ward avenue, and South street and Kawaiahao lane, Honolulu, is recorded.

Half of the Paunilo lands lately opened to settlement under right of purchase leases has already been taken up. It is good tobacco land, and the first to take up a holding was Gustav Kretzelmar, the tobacco expert. His lot is 90 acres, and his partner, George Douglas, takes the adjoining 68 acres.

Buildings are nearly completed for the cannery of the Hawaiian Pineapple Co. and the can factory, on the same site, to be operated by the American Can Co. Machinery for the latter has arrived and will be installed within thirty days. The factory will have a capacity of 40,000 to 50,000 cans a day and will be able to supply all of the fruit canneries in the Territory.

A company has been organized to erect a building for baths on the lot between the Y. M. C. A. and the Alex. Young building, Hotel street, the capital stock being \$10,000 with the privilege of increase to \$25,000.

PROMOTION AND PROGRESS.

There is no progress to report of the movement for securing a home-controlled steamship to run between Honolulu and San Francisco. Captain Matson, speaking for the Matson Navigation Co. that operates a steamer on the San Francisco-Honolulu-Hilo route, is quoted as saying: "If arrangements are completed with the merchants of Honolulu, we shall operate a steamship between San Francisco and Honolulu of 10,000 or 12,000 tons. It will be known as the local boat."

The American-Hawaiian Steamship company will place 11 steamers in service connecting with the Tehuantepec railroad, four on the Atlantic side, five from the Pacific terminus of the railway, plying to San Francisco and Honolulu, and two from San Francisco to Portland and the sound country, viz., the Nebraskan and Nevada. Those which will be kept on the Atlantic side running from New York are the American, Hawaiian, Oregonian and Californian, each of which has a carrying capacity of 8000 tons. From the Pacific terminus to San Francisco and Honolulu the Texan, Arizona, Alaskan, Mexican and Columbian will run, each capable of handling 11,000 tons of freight.

Jared G. Smith, director of the U. S. agricultural experiment station at Honolulu, writes to the Hilo Board of Trade, telling of efforts he is making to induce "the United Fruit Co., the corporation controlling the banana business of the United States," to put some of their fruit steamers into the trade between the islands and the Coast. He mentions also that the mainland fruit growers' associations are working for a duty on bananas and if they succeeded Hawaii and Porto Rico, being the only American countries where the banana can be grown, would be greatly advantaged.

After the expenses of the Washington delegation were paid, \$4997.49 remained from the \$15,000 contributed by the business men of the Territory for that purpose. The committee in charge of the fund recommended to the Chamber of Commerce that a sum not more than \$2500 be devoted to the Pacific yacht race and the balance of \$2487 to the general fund of the Hawaii Promotion Committee.

Most of the stock for the pineapple cannery at Hilo has been subscribed. L. A. Andrews has contracted for a minimum of 15 acres of pines for next year's crop and 20 acres for that of the following year. The price contracted for is \$17.50 a ton for 1907 and \$20 for 1908.

Beginning today a through service of twenty-minute cars will be given by the Rapid Transit Co. between the Liliha street and Waiialua road termini, by way of Beretania and Hotel streets, while the residents of the Liliha street district will still have ten-minute cars into town as far as River-street switch, with transfer privilege via King street for passengers desiring to go farther. Besides being a great gain for the residents of the Waiialua sections, the improved service will afford an agreeable outing route for tourists and others. Both termini afford views of some of the finest scenery in the islands.

Ocean steam arrivals for the week have been the Siberia from San Francisco, the China from the Orient and the Alameda from San Francisco. Departures have been the Olympia for Seattle via Hilo, the Hawaiian for the mainland via Kahului, the Siberia for the Orient and the China for San Francisco.

The eleven men who were engaged to work in September, 1905, at the Alewa quarry:

"Ninth Precinct:—Apalahama, Mahelona, H. Kaalona, Wikoli, Pake, Kapaki, Kahopeole, Kaikaula, Haleakala, Makaliwi."

Following the reading of the charges, E. T. P. Waterhouse, as one of the accused, asked to be allowed to answer, but they would not hear him. Sam Johnson laughed at the whole affair, and Supervisors Adams and Lucas explained as much as they were allowed by the excited Mr. Hustace, and his backers.

Senator Achi, who had been asked to be on hand as a witness, tried to testify, whereupon Jim Quinn shouted: "He is a traitor. He should not be allowed to speak in a Republican meeting."

Then Quinn walked out, and, after he had spoken, Achi did too—and on the street made pronouncement of war to the knife against Quinn. "He has been a Home Ruler," said Achi. "He will find it hard to keep me out of the Republican party. Let him go ahead."

To the Public!

I for one, with gladness hail with welcome Wallach's Indian Remedies and especially his pile cure, which I know from experience to be unequalled in its magical effect. Do not be fooled by a bunch of testimonials as given by patent medicines, for cost me all my earnings for years and found them all fakes and a big lot of lies, so beware of any kind of testimonials unless you can find them when you want the persons whose cure you read about.

Wallach's Indian Remedies did me good and will certainly do you good; it has no equal on the markets of America. If you try Wallach's Indian Remedies you will never be without them again. It is really a twentieth century wonder and I for one again cry Hail! Wallach's Indian Remedies. Yours in behalf of all sufferers.
